

Kenn Stipcak, Professional Biography

Currently a Vice President at Mark G. Anderson Consultants, Kenn Stipcak has compiled twenty-four years of experience in the commercial real estate, design and construction industry while focusing the past twelve years exclusively to mission critical environments. Kenn's resume includes the programming, development, design and construction of marquee data center facilities for clients such as TD Bank, [Time Warner Cable](#), Fannie Mae, Credit Suisse, Highmark BlueCross, PSINet, Unisys, U.S. Dept. of Education, GEICO and Eaton Corporation. As a leader in critical environment program management, Kenn managed the programs for the world's first LEED Certified data center as well as the first LEED Silver Certified data center and one of the first 400V data centers in the U.S. His current responsibilities at MGAC include all aspects associated with the Critical Environments Group including, customer relations, business development, proposals, day-to-day project management, resource planning, scheduling, financials, etc. Kenn also holds a current, top-secret level U.S. Government clearance.
